Stephanie Hull

Stephanie graduated from The McKay Method™ School of Energy Healing (formerly School of Sahaj), in 2008, and is experienced in the The Work of Byron Katie®, Continuum Movement, meditation, Enneagram personality typing, flower essence therapy, and is an ongoing student of Eastern and Christian mystical theology. She practices hands-on healing that brings opening and balance to the energy field and deepens the higher-self connection, promoting the potential for increased happiness, self-healing, and alignment with life purpose. This energy therapy incorporates intuitive and non-invasive techniques that focus on the subtle energy structures of the body (aura, chakras, meridians) and their connection to the higher-self to remove blocks to physical, emotional and spiritual health.

Stephanie earned a B.A. in Anthropology from Western Michigan University and a B.S. in Horticulture from Montana State University, has 25+ years experience in business, and currently manages The McKay Method™ School of Energy Healing.

Stephanie lives in Bozeman, MT with her husband, a spoiled and independent cat (for comic relief), and a wild overgrown garden.

“As long as I can remember, I have been drawn to a path of personal inquiry and spiritual exploration, and have been blessed with amazing teachers and mentors. Foremost is my husband of nearly 30 years whose own desire for self-awareness has led us on many adventures, including energy healing school! The McKay Method™ School of Energy Healing provided essential training and context to working with our selves and others on this amazing path.

Also among our greatest guides has been the “Hugging Saint” Sri Mata Amritanandamayi Devi (Amma), whose tireless devotion to serving the world with love and compassion reminds us of our infinite potential. Visiting Amma’s Indian ashram, we had the good fortune as well to spend six weeks under the guidance and direction of Devananda, a Japanese energy healer and former Buddhist monk.

Other significant influences include the teachings of Sri Ramana Maharshi, Maharishi Mahesh Yogi, Nisargadatta Maharaj, Dr. David Hawkins, Byron Katie, Eckhart Tolle, St Teresa of Avila, Dr. Stylianos Atteshlis (the healer known as Daskalos), and Bernadette Roberts.

To me, energy is consciousness, and my practice is about coming together with clients in consciousness to create wellness in mind, body, and spirit. It is about awakening to, and enlivening our natural abundance, and the innate intelligence of our being.”
