

TREE HAUS HEALING
BETH L. COCHRAN

Hello, Beth Cochran here, I am in my final years with the McKay Method of Energy Healing. I have known Bear McKay for over 9 years now. She has been instrumental to the health and well being for me and my family.

In addition to the work with the McKay Method, I am interested in integrating fundamental CrainoSacral therapy and Feng Shui into my practice. I am working on the important values of the Feng Shui principals as we heal our bodies and the energies of the spaces we live in. This integration will be an on going evolution and I will share with you what I learn along the way. There is also something deep for me in Crainial-Sacral methods and the work of the McKay Method as we incorporate the body's interstitial fluids and the integrated levels of energy that we practice.

My background includes over 18 years in marketing and communications in the sporting goods industry. My alter-ego has spent a life time intrigued by this course work, as well as the work of Byron Katie, Eckhart Tolle, Barbara Brennan some unusual experiences along the way. As a result, I am very excited to have you along my journey.

I welcome you to call me for a class session as I build my hours. It would be an honor to work on you. 406.579.7909
